

PERFORATED BRICK SCREEN

Provides shading, reduces heat gain and adds a distinctive texture to the facade.

FRAMED VOLUME

Bold concrete/metal frame highlights the glazed section and creates depth.

CURTAIN WALL GLAZING

Full height glazing brings in natural light and creates a connection with the surroundings.

INTEGRATED PLANTERS

Greenery softens the facade, improves microclimate and enhances the visual appeal.

Concrete Finish

Charcoal Frame

Glass

Timber Louvers

Greenery

FEATURE WINDOWS

Recessed framed windows add rhythm and a contemporary expression to the facade.

HORIZONTAL BANDS

Clean horizontal lines define the building geometry and break down the facade mass.

NIGHT LIGHTING

Subtle linear lighting highlights the texture and architectural details, creating a refined evening presence.

GROUND FLOOR TREATMENT

Transparent facade with timber vertical elements creates a welcoming and active street interface.
